Chief Building Official

REPLACEMENT OF DOORS AND WINDOWS

Reference: California Building Code, Appendix Chapter 1, Section 105

Section 105 of Appendix Chapter 1 of the California Building Code generally requires building permits for alteration work. Replacement of windows or doors having the same dimension as those being replaced and not requiring any change to the structural frame or opening size will not be considered an alteration that requires a permit.

Such replacements however, must still meet all code requirements for weather proofing, security and energy efficiency. For questions relating to these requirements, please call (949) 724-6471 and ask to speak to a plans examiner.
