

# **City of Irvine**

A black and white photograph of the City of Irvine skyline. In the foreground, three tall palm trees are silhouetted against the sky. Behind them, a modern building with a curved glass facade and a tall clock tower is visible. The sky is cloudy.

# **General Plan**

**Supplement No. 8 June 2012**

**The City of Irvine**

**General Plan**

# **Year 2000 General Plan Update**

Adopted March 9, 1999  
City Council Resolution 99-30

## **City Council**

Christina Shea, Mayor  
Michael Ward, Mayor Pro-Tempore  
Larry Agran  
Dave Christensen  
Greg Smith

## **Planning Commission**

Jon Fleischman, Chair  
Dave Kelly, Vice Chair  
John Kleinpeter  
Ed Dornan  
Joe Martinez

## **Transportation and Infrastructure Commission**

Manuel Gomez, Chair  
Gary Vanderpol, Vice Chair  
Anthony Dragun  
George Gallagher  
Alan Snodgrass

## **Community Services Commission**

Mike House, Chair  
Carolyn McInerney, Vice-Chair  
B.J. Lusk  
Carol Liittschwager  
Alan Dugard

## **Finance Commission**

Don Dressler, Chair  
Barry Katz, Vice Chair  
Ned Kassouf  
Sonia Martin  
Jim Colclaser

---

### **City Administration**

Allison Hart, City Manager  
Joel Kuperberg, City Attorney  
Charles Brobeck, Chief of Police  
Jim Eldridge, Director of Public Works  
Deanna Manning, Director of Community Services  
Sheri Vander Dussen, Director of Community Development

---

### **General Plan Project Staff**

Peggy Schneble, Manager of Planning and Development Services  
Leslie Aranda, Principal Planner  
Glen Worthington, Principal Planner  
Stephanie Keys, Senior Planner  
Jennifer Winn, Senior Planner  
Barry Curtis, Senior Planner

| City of Irvine Profile .....           | 5 |

## **A. Land Use Element**

|                                             |      |
|---------------------------------------------|------|
| Description .....                           | A-1  |
| Existing Conditions .....                   | A-2  |
| Trends .....                                | A-3  |
| Land Use Categories .....                   | A-4  |
| Objective A-1: City Identity .....          | A-10 |
| Objective A-2: Economic Development .....   | A-11 |
| Objective A-3: Open Space Areas .....       | A-12 |
| Objective A-4: Balanced Land Uses .....     | A-13 |
| Objective A-5: Fiscal Program .....         | A-15 |
| Objective A-6: Land Use Compatibility ..... | A-16 |
| Objective A-7: Urban Design .....           | A-19 |

## **B. Circulation Element**

|                                                       |      |
|-------------------------------------------------------|------|
| Description .....                                     | B-1  |
| Existing Conditions .....                             | B-1  |
| Trends .....                                          | B-4  |
| Objective B-1: Roadway Development .....              | B-7  |
| Objective B-2: Roadway Design .....                   | B-10 |
| Objective B-3: Pedestrian Circulation .....           | B-14 |
| Objective B-4: Bicycle Circulation .....              | B-15 |
| Objective B-5: Riding and Hiking Trail Networks ..... | B-16 |
| Objective B-6: Public Transit Program .....           | B-17 |
| Objective B-7: Air Transportation Program.....        | B-18 |
| Objective B-8: Telecommunications Program .....       | B-18 |

## C. Housing Element

|                                                                                      |       |
|--------------------------------------------------------------------------------------|-------|
| Introduction .....                                                                   | C-1   |
| Background .....                                                                     | C-2   |
| Community Context – A Commitment To:.....                                            | C-2   |
| Additional Information .....                                                         | C-6   |
| Regional Housing Needs Allocation .....                                              | C-6   |
| Sources of Data .....                                                                | C-6   |
| General Plan Consistency .....                                                       | C-7   |
| Public Participation .....                                                           | C-7   |
| Existing Housing Needs .....                                                         | C-10  |
| Population, Employment, and Housing Characteristics Trends .....                     | C-10  |
| Overpayment and Overcrowding .....                                                   | C-18  |
| Extremely Low Income Households .....                                                | C-24  |
| Housing Stock Characteristics .....                                                  | C-28  |
| Housing Cost and Affordability .....                                                 | C-38  |
| Assisted Housing Development “At Risk” of Conversion .....                           | C-44  |
| Financial and Administrative Resources .....                                         | C-53  |
| Irvine Community Land Trust .....                                                    | C-53  |
| Section 8 Rental Assistance .....                                                    | C-56  |
| Opportunity for Sustainable Housing .....                                            | C-58  |
| Planning and Land Use .....                                                          | C-58  |
| Conservation Incentives for the Building Industry and Residents .....                | C-59  |
| Promoting Green Building and Energy Efficient Building Standards and Practices ..... | C-59  |
| Special Housing Needs .....                                                          | C-61  |
| Persons with Disabilities .....                                                      | C-61  |
| Elderly .....                                                                        | C-64  |
| Large Families and Female-Headed Households .....                                    | C-66  |
| Farmworkers .....                                                                    | C-70  |
| Homeless .....                                                                       | C-70  |
| College Students .....                                                               | C-72  |
| Projected Housing Needs .....                                                        | C-74  |
| Regional Housing Needs Allocation .....                                              | C-74  |
| Units Built, Under Construction, and/or Approved During the Planning Period .....    | C-75  |
| Sites Inventory and Analysis .....                                                   | C-79  |
| Environmental Constraints and Adequate Infrastructure .....                          | C-84  |
| Housing Constraints .....                                                            | C-88  |
| Government Constraints .....                                                         | C-88  |
| Market Constraints .....                                                             | C-116 |
| Goals, Policies, and Programs .....                                                  | C-119 |
| Goal and Policies .....                                                              | C-120 |
| Housing Programs .....                                                               | C-122 |
| Quantified Objectives: 2008-2014 .....                                               | C-132 |

## **D. Seismic Element**

|                                            |     |
|--------------------------------------------|-----|
| Description .....                          | D-1 |
| Existing Conditions .....                  | D-2 |
| Trends .....                               | D-3 |
| Objective D-1: Potential Hazards .....     | D-4 |
| Objective D-2: Response to Hazards .....   | D-4 |
| Objective D-3: Citizen Participation ..... | D-5 |

## **E. Cultural Resources Element**

|                                                                          |     |
|--------------------------------------------------------------------------|-----|
| Description .....                                                        | E-1 |
| Existing Conditions .....                                                | E-2 |
| Trends .....                                                             | E-2 |
| Objective E-1: Historical, Archaeological, Paleontological Surveys ..... | E-4 |
| Objective E-2: Hazard Occurrence .....                                   | E-5 |

## **F. Noise Element**

|                                       |     |
|---------------------------------------|-----|
| Description .....                     | F-1 |
| Existing Conditions .....             | F-2 |
| Trends .....                          | F-5 |
| Objective F-1: Mobile Noise .....     | F-7 |
| Objective F-2: Stationary Noise ..... | F-8 |
| Objective F-3: Noise Abatement .....  | F-9 |

## **G. Public Facilities and Services Element**

|                                                     |     |
|-----------------------------------------------------|-----|
| Description .....                                   | G-1 |
| Existing Conditions .....                           | G-2 |
| Trends .....                                        | G-3 |
| Objective G-1: Public Facilities Development .....  | G-4 |
| Objective G-2: City Services .....                  | G-7 |
| Objective G-3: Public Participation .....           | G-8 |
| Objective G-4: Maintenance and Rehabilitation ..... | G-8 |

## **H. Integrated Waste Management Element**

|                                                               |     |
|---------------------------------------------------------------|-----|
| Description .....                                             | H-1 |
| Existing Conditions .....                                     | H-2 |
| Trends .....                                                  | H-2 |
| Objective H-1: Solid Waste .....                              | H-5 |
| Objective H-2: Solid Waste Facility Siting Requirements ..... | H-6 |
| Objective H-3: Waste Water .....                              | H-7 |

## **I. Energy Element**

|                                             |     |
|---------------------------------------------|-----|
| Description .....                           | I-1 |
| Existing Conditions .....                   | I-2 |
| Trends .....                                | I-2 |
| Objective I-1: Energy Conservation .....    | I-4 |
| Objective I-2: Retrofit Programs .....      | I-6 |
| Objective I-3: Municipal Conservation ..... | I-8 |

## **J. Safety Element**

|                                         |     |
|-----------------------------------------|-----|
| Description .....                       | J-1 |
| Existing Conditions .....               | J-1 |
| Trends .....                            | J-3 |
| Objective J-1: Hazard Occurrence .....  | J-4 |
| Objective J-2: Disaster Response .....  | J-4 |
| Objective J-3: Insurance Programs ..... | J-5 |

## **K. Parks and Recreation Element**

|                                                          |     |
|----------------------------------------------------------|-----|
| Description .....                                        | K-1 |
| Existing Conditions .....                                | K-2 |
| Trends .....                                             | K-3 |
| Objective K-1: Recreational Opportunities .....          | K-5 |
| Objective K-2: Park Dedication .....                     | K-6 |
| Objective K-3: Park Location .....                       | K-7 |
| Objective K-4: Park Maintenance and Rehabilitation ..... | K-7 |

## **L. Conservation and Open Space Element**

|                                                           |      |
|-----------------------------------------------------------|------|
| Description .....                                         | L-1  |
| Existing Conditions .....                                 | L-1  |
| Conservation and Open Space Element Characteristics ..... | L-3  |
| Trends .....                                              | L-5  |
| Objective L-1: Implementation Action Program .....        | L-8  |
| Objective L-2: Biotic Resources .....                     | L-8  |
| Objective L-3: NCCP/HCP Implementation Areas .....        | L-12 |
| Objective L-4: Geophysical Hazards .....                  | L-13 |
| Objective L-5: Geophysical Resources .....                | L-14 |
| Objective L-6: Societal Hazards .....                     | L-16 |
| Objective L-7: Societal Resources .....                   | L-16 |
| Objective L-8: Preservation Areas .....                   | L-17 |
| Objective L-9: Recreation Areas .....                     | L-18 |
| Objective L-10: Permanent Agriculture .....               | L-19 |
| Objective L-11: Landfill Overlay .....                    | L-20 |
| Objective L-12: Water .....                               | L-21 |

## **M. Growth Management Element**

|                                                                     |      |
|---------------------------------------------------------------------|------|
| Description .....                                                   | M-1  |
| Existing Conditions .....                                           | M-1  |
| Trends .....                                                        | M-2  |
| Objective M-1: Cooperative Implementation .....                     | M-3  |
| Objective M-2: Integrate Land Use and Transportation Planning ..... | M-4  |
| Objective M-3: Roadway Maintenance and Capacity Enhancement .....   | M-6  |
| Objective M-4: Transportation Demand Management .....               | M-7  |
| Objective M-5: Transit Systems and Service .....                    | M-9  |
| Objective M-6: Balanced Growth .....                                | M-10 |
| Objective M-7: Phased Growth .....                                  | M-11 |
| Objective M-8: Monitoring .....                                     | M-13 |
| Objective M-9: Management of Funds .....                            | M-14 |

## **N. Irvine Business Complex Element**

|                                                                                 |      |
|---------------------------------------------------------------------------------|------|
| Description .....                                                               | N-1  |
| Existing Conditions .....                                                       | N-3  |
| Trends .....                                                                    | N-5  |
