

CITY COUNCIL RESOLUTION NO. 21-33

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF IRVINE, CALIFORNIA, REPLACING CITY COUNCIL RESOLUTION NO. 19-33 AND ESTABLISHING DEVELOPMENT PROCESSING AND INSPECTION FEES, REPLACING AND SUPERSEDING ALL PREVIOUS RESOLUTIONS THAT ARE INCONSISTENT THEREWITH

WHEREAS, there are a number of services provided by the City in processing applications for the development of property in the City that are of primary benefit to the applicant; and

WHEREAS, the cost of these services should be borne primarily by the applicant receiving benefit from such services and so as to ensure timely and effective processing of the applications; and

WHEREAS, the City can account for the actual costs of these services provided to the applicants; and

WHEREAS the City has caused to be conducted a cost study to determine the actual cost of providing building and safety services, and this study recommended modifications to the City's existing building and safety fees to reflect the actual cost of providing these services; and

WHEREAS, the City Council conducted a duly noticed public hearing on May 25, 2021 to consider the proposed fee modifications.

NOW, THEREFORE, the City Council of the City of Irvine DOES HEREBY RESOLVE:

SECTION 1. Amount of Fees.

Based upon the evidence presented to it, the City Council finds that the fees adopted by this Resolution do not exceed the reasonable cost of providing the services for which the fees are charged.

The processing fees for development proceedings in the City of Irvine shall be based on full processing costs, which are defined as the direct cost required to review, check and inspect development applications submitted to the City for approval, plus applicable overhead costs. All costs for consultant services, inclusive of any applicable in-house administrative costs, for development applications that cannot be processed in-house shall be borne by the applicant. Applicable fees are detailed in Schedule I, II, III, IV, and V incorporated herein by this reference as if set forth in full. The increases will be phased in over a two year period, as shown on each of the attached Schedules.

FLAT FEES: Where applicable, flat fees have been established for certain services where the average cost is subject to minimum fluctuation. These flat fees are included on schedules incorporated into this Resolution.

HOURLY CHARGES: Where applicable, hourly charges shall be accumulated for development processing activities and the applicant shall pay all such costs prior to final action on the related project or as soon thereafter as such costs may be finally determined. The payment of such costs may be a condition of approval for any such application. If payment is not received within seven working days after the invoice due date, all development processing activities will be suspended until payment is received.

Fees shall be charged according to the following development processing services provided:

A.Planning: Fees for processing development cases that qualify for final approval at staff level and/or by the City of Irvine Zoning Administrator shall be based on a direct cost of one-hundred, forty-one dollars and no cents (\$141.00) per hour. If applicable, transportation plan review shall be based on the cost of one-hundred, fifty seven dollars and no cents (\$157.00) per hour. All other development cases, including appeals of decisions made by staff or the Zoning Administrator, will be processed based on a cost of one-hundred, forty-one dollars and no cents (\$141.00) per hour.

Project specific expenditures (i.e., City Attorney services, postage for mailing public notices, advertising) have been excluded from the hourly rates. Applicants will be directly billed for these costs on a project by project basis.

B. Engineering: Fees for all Building & Safety engineering services shall be based on a cost of one-hundred, sixty-two dollars and no cents (\$162.00) per hour.

C.Engineering: Fees for all Development Engineering services shall be based on a cost of one-hundred, forty eight dollars and no cents (\$148.00) per hour. City Attorney services, if applicable, shall be recovered from the applicant on a project by project basis beginning with the first plan check.

D. Inspection: Fees for Building and Safety inspection services shall be based on a cost of one-hundred, forty-six dollars and no cents (\$146.00) per hour. Development Engineering/Traffic Inspection services shall be based on a cost of one-hundred, forty dollars and no cents (\$140.00) per hour.

## SECTION 2. Deposits.

In cases where an hourly rate is being charged, as opposed to a flat fee, each applicant shall place on deposit with the City the sum detailed by case type in Schedules I and III. Deposits have been estimated to represent the minimum amount required to process each case type. The costs of an individual case may be significantly more than

the initial deposit amount. Costs will be charged against the deposit up to the minimum deposit amount on account until the development case is closed and all costs have been paid. Any charges incurred in excess of the initial deposit will be billed on a monthly basis. A late fee and delinquent charges shall be levied against delinquent development processing charges as detailed in City Council Resolution 91- 65.

The department Director or the designee may approve, on a case by case basis, a lower deposit for cases requiring a public hearing or a lower fee amount for cases handled administratively. However, the initial deposit may not be less than the required minimum balance for the case type as specified in Schedule I.

### SECTION 3. Refunds.

If the amount on deposit pursuant to Section 2 exceeds all accumulated costs at the time of the final action on subject application, the excess deposit shall be refunded to the applicant.

### SECTION 4. Waiver of Fees

The City Manager or the designated administrative authority may approve a waiver of fees under the following circumstances:

A. Where the applicant is a nonprofit organization formed and operating for eleemosynary, civic, or educational purposes; or

B. Where the actual cost of processing an application is considered to be negligible.

### SECTION 5. Annual Increases.

In addition to the Proposed Development Processing and Inspection Fees adopted herein, the City Council hereby approves and authorizes the Community Development Department to implement adjustments consistent with the Los Angeles-Long Beach-Anaheim Consumer Price Index (CPI) commencing on or after July 1, 2021, and on an annual basis each year following for any Development Processing and Inspection Fees not increased within this Resolution. On July 1, 2023, and annually thereafter, all fees on Schedules I, II, III, IV, and V are subject to an annual CPI increase. Such annual CPI increases shall include a zero percent floor with no decrease in fees.

### SECTION 6. Effective Date.

The revised fees shall be applied to all invoices submitted or processed 60 days from the date of City Council approval.

SECTION 7. That the City Clerk shall certify to the passage and adoption of this Resolution and enter it into the book of original Resolutions.

PASSED AND ADOPTED by the City Council of the City of Irvine at a regular meeting held on the 25<sup>th</sup> day of May 2021.

**SCHEDULE I**  
**PLANNING AND DEVELOPMENT ENGINEERING FEES**

1. Valuation for purposes of reporting shall be set on the basis of the International Code Council (ICC) published Building Valuation Data Table as published in the Building Safety Journal, or the RS Means Square Foot Costs Manual, where ICC data is not available. If data is not available, appeals concerning valuation may be heard and determined by the Chief Building Official
2. Building plan check and inspection costs are determined based upon staff time and cost data, which is documented on a daily basis. Plan check and inspection fees for each fee category are determined based on this data and the hourly rate established by the City Council.
3. No plan check or inspections fees are required for City funded capital improvement projects. These expenses will be charged directly against individual project budgets.
4. Where a fee is required, but where not specified for a specific circumstance, the Chief Building Official, City Engineer, or Director of Community Development shall determine and set the fee based on the expected City cost of providing plan review, case processing, inspection, or code enforcement services.
5. The cost of expedited or overtime services shall include regular fees plus the additional cost of providing the expedited or overtime service. Approval of requests for expedited or overtime services are at the discretion of the Chief Building Official, Director of Community Development, or City Engineer.
6. Where an applicant believes that unusual circumstances exist that make the scheduled fee inappropriate for a particular project, the following procedure shall apply:
  - a. The applicant shall request a modification of the scheduled fees for the project in writing to the Chief Building Official, Director of Community Development, or City Engineer
  - b. The applicant shall specify in the written request the unusual circumstances that make the scheduled fees inappropriate for the project and include any substantiating documentation.
  - c. The Chief Building Official, Director of Community Development, or City Engineer shall make written findings whether or not usual circumstances exist that make the scheduled fees inappropriate for the project.

**SCHEDULE I**  
**PLANNING AND DEVELOPMENT ENGINEERING FEES**

- d. If the Chief Building Official, Director of Community Development, or City Engineer finds unusual circumstances do exist that make the scheduled fees inappropriate for the project, the Chief Building Official, Deputy Director of Community Development, or City Engineer shall determine and set the fee based on the expected City cost of providing plan check, inspection, code enforcement or planning services.

7. Plan Review Payment

When a plan is required by the Administrative Authority to be submitted, a plan review fee shall be paid at the time of plan and specification submittal.

8. Penalty for Returned Checks

A penalty of \$25.00 shall be levied against all returned checks.

Plan Check Submittal Quality Incentive

The purpose of this incentive is to encourage complete initial plan check submittals that comply with City codes and ordinances. This incentive applies to new building construction and new grading projects over two acres. It does not apply to tract production projects, additions, or alterations to existing buildings.

If a qualifying project is approved on the first submittal, 30 percent of plan check fees will be refunded to the applicant. Fees other than plan check fees are not subject to this refund
